## **Streatham High Surgery**

Unplanned admissions- using our ideas on educating patients to reduce hospital admissions
Encourage patients to have personalised care plans/be more involved and aware of their own health
By march we will need to have come up with an action plan  • Will need 3 priorities  • Have a rough action plan before Christmas  Prior to next meeting, the template we need to use for the action plan will be advertised
Idea- We could advertise our meeting in local 'Lambeth Talk' booklet
